EDUCATION

B.Tech (ECE) - Netaji Subhas University of Technology	2022 – 2026
C.B.S.E (Class X) - RPVV IP Extension	2019
C.B.S.E (Class XII) - RPVV IP Extension	2021

WORK EXPERIENCE

EdgeFleet.ai · AI Product Development Intern — EdgePlay.ai (AI Dataset Operations Platform)	Apr 2026 – Jun 2026
• Own end-to-end product design and platform architecture for EdgePlay.ai, an internal AI Dataset Operations Platform streamlining the full dataset lifecycle for computer vision models used in sports analytics, from raw video ingestion to versioned, AI-ready datasets. • Defined product requirements, user workflows, database schema, API structure & worker execution pipelines for a modular FastAPI backend spanning Projects, Users, Assets, Tasks, Jobs, Workers, Assignments, Events & Storage. • Redesigned manual, MPV-based dataset creation into automated, scalable workflows; specified a browser-based Trimming Workspace and planned Label Studio integration as an embedded annotation layer, keeping the platform system-of-record for orchestration & metadata. • Architected an automated media pipeline using signed URLs from Backblaze B2, FFmpeg-based worker processing & version-controlled asset registration with full lineage and audit traceability. • Drove cross-functional architecture decisions across React/TypeScript frontend, PostgreSQL, Redis & Docker, balancing UX, engineering scalability and operational efficiency; defined product vision & roadmap for integration into the org's existing project management platform.	
MECON Limited · Data & SCADA Intern · PSU under Government of India	Jun – Jul 2025
• Queried, joined & validated 5,000+ operational records using SQL; designed & maintained Power BI dashboards tracking 20+ KPIs, translating complex data patterns into decision-ready narratives that cut manual monitoring effort by 40%. • Automated MIS reporting workflows using Python & Power Query, structuring multi-source datasets into scalable frameworks that reduced turnaround and ad-hoc retrieval time by 30% each, enabling repeatable analytics across operational teams.	

PROJECTS

VoiceEval — AI Conversation Evaluation Platform Figma · Notion · Claude · Product Thinking
• Defined full product vision for an AI voice evaluation platform — problem statement, user personas & JTBD framework; built a MoSCoW-prioritised feature backlog covering annotator, reviewer & admin workflows for the Humanness by JoshTalks PM Challenge. • Designed Figma wireframes for the evaluator dashboard, review queue & scoring interface; mapped edge cases, escalation paths & rubric configuration flows into a production-ready UX blueprint. • Defined measurable success metrics (annotation accuracy, reviewer throughput, inter-rater agreement) and consolidated the full PRD & wireframes into a submission demonstrating end-to-end product thinking.
HR Employee Attrition Analytics Python · SQL · Power BI · Excel
• Ran end-to-end analysis of 1,470 employee records (Python EDA, 11 SQL queries, 4-slicer Power BI dashboard); identified Sales Reps at 39.8% attrition and a 3x higher-risk 0–2 year tenure band, engineering a composite SatisfactionScore for deeper segmentation.
Sales Performance Analytics Dashboard Python · SQL · Power BI · Excel
• Analysed 5,009 orders across 4 years via Python EDA & 12 SQL queries; built a 3-page drill-through Power BI dashboard and margin-waterfall analysis showing 40%+ discounts drive a net loss of -9,559 vs 29,988 profit at zero discount.

SKILLS

Product & Design: PRD Writing, Product Roadmapping, User Personas, MoSCoW Prioritisation, JTBD Framework, Workflow & Systems Design, Cross-functional Collaboration, Figma (Wireframing & Prototyping), Go-to-Market Strategy
Platform & Systems: FastAPI, REST APIs, PostgreSQL, SQLAlchemy, Redis, Docker, System Architecture, Database Schema Design, Worker & Pipeline Orchestration
Data & BI: Power BI (DAX), SQL, Python (Pandas, Matplotlib, Plotly), Excel (Pivot Tables, Power Query, XLOOKUP), Git, GitHub
AI & Tools: Claude, ChatGPT, Gemini, NotebookLM, Cursor, N8N (Workflow Automation), Fireflies, Notion, MS Office Suite

POSITIONS & LEADERSHIP

President · ShakesJeer — Open Mic & Performing Arts Society, NSUT	2023 – Present
• Led & organised 20+ large-scale events for live audiences of 500+, owning end-to-end execution — theme curation, performer coordination & outreach — growing society participation by 30% and building NSUT's most active cultural community. • Mentored 10+ junior members and managed 100+ active members across semesters; developed a structured onboarding process, coaching framework & semester-wise programming calendar for sustained engagement.	
Team Head · MOKSHA — Annual Cultural Fest, NSUT	2023 – 2025
• Headed Logistics (2023), Operations (2024) & PR/Outreach (2025) for one of Delhi's largest college cultural fests, coordinating 50+ volunteers across creative, logistics & marketing teams. • Hosted NSUT GOT LATENT (200+ footfall), managing complete end-to-end execution including venue setup, audience management & live compering — one of the fest's most attended segments.	
Hobbies & Interests: Open Mic Performance & Spoken Word · Sports · Food · Music · Travelling
