EDUCATION

Course	College / University	Year
B.Tech (ECE)	Netaji Subhas University of Technology	2022–2026
C.B.S.E (Class XII)	RPVV IP Extension	2020–2021
C.B.S.E (Class X)	RPVV IP Extension	2018–2019

WORK EXPERIENCE

- MECON Limited** · *Data & SCADA Intern* · *PSU under Government of India, Delhi* Jun – Jul 2025
- Queried, joined & validated **5,000+ operational records** using SQL; designed & maintained Power BI dashboards tracking **20+ KPIs**, reducing manual monitoring effort by **40%**; translating complex data patterns into clear, decision-ready narratives.
 - Automated MIS reports using Python & Power Query, reducing turnaround by **30%**; structured multi-source datasets into scalable reporting frameworks, cutting ad-hoc data retrieval time by **30%** and enabling consistent, repeatable analytics workflows across operational teams.
 - Applied descriptive, correlation & time-series analysis to detect performance gaps and anomalies; collaborated closely with engineering & operations teams to translate analytical findings into **actionable process improvements** with measurable impact on reporting accuracy.

PROJECTS

- VoiceEval — AI Conversation Evaluation Platform** | *Figma · Notion · Claude · Product Thinking*
- Defined full product vision for an AI voice evaluation platform, writing the problem statement, user personas, and JTBD framework; developed a **MoSCoW-prioritised feature backlog** covering annotator, reviewer, and admin workflows, ensuring alignment between user needs and engineering feasibility for the Humanness by JoshTalks PM Challenge.
 - Designed Figma wireframes for the evaluator dashboard, review queue, and scoring interface; mapped edge cases, escalation paths, and rubric configuration flows across the complete user journey, creating a **production-ready UX blueprint** from initial concept to structured submission.
 - Defined measurable success metrics including annotation accuracy, reviewer throughput, and inter-rater agreement; consolidated the full **PRD & wireframes** into a professional submission demonstrating end-to-end product thinking, strategic prioritisation, and structured delivery within a tight, time-bound challenge format.
- HR Employee Attrition Analytics** | *Python · SQL · Power BI · Excel*
- Conducted end-to-end analysis of **1,470 employee records** using Python EDA, 11 SQL queries, and a 3-page interactive Power BI dashboard with DAX measures and 4 slicers for department, role, overtime & tenure filtering, enabling multi-dimensional exploration of attrition patterns across the entire workforce dataset.
 - Identified that **Sales Reps carried 39.8% attrition** and the 0–2 year tenure band showed 3x higher risk; engineered 5 derived features including a composite SatisfactionScore, providing richer segmentation and deeper predictive insight into the behavioural and structural drivers behind employee turnover.
 - Built a dashboard that translates raw HR data into **targeted retention strategies**, enabling HR teams to identify at-risk cohorts, prioritise interventions by attrition probability and business impact, and make evidence-based workforce planning decisions with clear, actionable visualisations.
- Sales Performance Analytics Dashboard** | *Python · SQL · Power BI · Excel*
- Analysed **5,009 orders across 4 years** using Python EDA and 12 SQL queries; built a 3-page Power BI dashboard covering regional, category & segment performance with full drill-through filter capability, delivering a comprehensive view of sales dynamics across every key business dimension.
 - Uncovered that high discounts (40%+) generate a **net loss of ₹9,559** versus ₹29,988 profit at zero discount, and that the Tables sub-category loses ₹7,725 despite ₹6K gross sales; findings derived via margin waterfall analysis, exposing structural pricing inefficiencies invisible in top-line revenue reporting.
 - Built a Region x Category heatmap and monthly trend chart with an average reference line, enabling executives to **instantly spot underperforming markets** and make data-backed resource allocation decisions; the dashboard serves as a reusable analytical framework adaptable to future sales cycles and evolving product portfolios.

SKILLS

Data & BI: Power BI (DAX), SQL, Python (Pandas, Matplotlib, Plotly, openpyxl), Excel (Pivot Tables, Power Query, XLOOKUP), Git, GitHub
Product & Design: Figma (Wireframing & Prototyping), PRD Writing, User Personas, MoSCoW Prioritisation, JTBD Framework, Go-to-Market Strategy
Documentation: MS Office Suite, Notion, Stakeholder Presentations, Business Reports, MIS Reporting, Data Storytelling
AI & Tools: Claude, ChatGPT, Gemini, NotebookLM, Cursor, N8N (Workflow Automation), Fireflies

POSITIONS & LEADERSHIP

- President** | *ShakesJeer — Open Mic & Performing Arts Society, NSUT* 2023 – Present
- Led & organised **20+ large-scale events** with live audiences of 500+, managing end-to-end execution: theme curation, performer coordination, and social media outreach; grew society participation by 30% and built ShakesJeer into one of NSUT's most active cultural communities.
 - Mentored 10+ junior members in performance & creative direction; organised a special Musical Affair for visually impaired students; managed **100+ active members** across semesters, developing a structured onboarding process, performance coaching framework, and semester-wise programming calendar to sustain consistent society engagement.
- Team Head** | *MOKSHA — Annual Cultural Fest, NSUT* 2023 – 2025
- Headed Logistics (2023), Operations (2024), and **PR & Outreach (2025)** for one of Delhi's largest college cultural fests, coordinating across 50+ volunteers drove cross-functional collaboration between creative, logistics, and marketing teams to deliver seamless, large-scale event execution.
 - Hosted the **NSUT GOT LATENT** event with 200+ footfall, managing complete end-to-end execution including venue setup, audience management, and live compereing on stage; the event became one of the fest's most attended segments, demonstrating strong public presence and real-time crowd management capability.

Hobbies & Interests: Open Mic Performance & Spoken Word · Sports · Food · Music · Travelling
